RE: Montebello Unified School District to continue school closures through the rest of the academic school year

Dear Montebello Unified School District Family,

I would like to update you that today we announced that schools would remain closed through the remainder of the academic school year due to the Coronavirus (COVID-19) pandemic. Health Officials, California Governor Gavin Newsom, and State Superintendent of Public Instruction, Tony Thurmond, recommend we continue with school closures due to the current safety concerns and need for ongoing social distancing.

The extended closure of our schools does not mean the end of the academic school year. Instead, it means we will work on strengthening distance learning. Our students are expected to continue learning with the assignments and resources provided.

Our personnel will continue to communicate with our students and families with latest assignments and distance learning resources. If you have any questions we encourage you to contact your school’s administration, e-mail your teacher, or designated school personnel. If there is a need for technical or equipment support, please e-mail myhelp@montebello.k12.ca.us.

The District continues to encourage students to stay home and minimize social contact as much as possible to keep caregivers and adult family members safe and healthy.

Our personnel is working diligently to protect health and safety while maintaining true to our vision of empowering students to achieve academic excellence as model citizens.

We thank you for your continued support and flexibility.

Dr. Anthony J. Martinez
Superintendent of Schools
Montebello Unified School District
